Comment on FR Doc # 2015-14921

Submitter Information

Name: Richmond Littlefield

General Comment

We do not want the Fed Govt running our retirement funds--look what they have done to our Social Security. You plan to invest in US treasuries I suppose but the future of US Treasuries is very uncertain with the IMF about to make various changes to international finance. Get the Hell out--it is too complicated for you and you would only mess it up any way.
